Illuminati Manipulates Humanity by Advanced Psychic Abilities & Tablets of Destiny Samuel Chong Interview

<https://rumble.com/v5efklp>

Samuel Chong recently translated a book published in German by a former leader of a highly secret society called the Lodge (aka Illuminati) titled . The strange title of the book, *334 ‰ Lies: The Revelation of H. M. v. Stuhl*, is a codeword for 666, as it involves subtracting 334 from 1000, which is what the fraction ‰ represents. The title represents the diabolical nature of the Illuminati and its global activities. Chong describes how the Illuminati recruits members based on their psychic abilities, and they perform human blood sacrifice rituals to enhance their abilities.

Chong describes how Illuminati members develop powerful mental abilities that can influence untrained individuals to think and behave in desired ways without realizing they are being manipulated. The Illuminati has hidden libraries containing stone tablets of destiny that enable its members to predict the future with stunning accuracy. Their ability to influence individuals and predict future timelines allows the Lodge/Illuminati to easily manipulate global elites and the rest of humanity.

According to the author of *334 ‰ Lies*, he defected after he achieved spiritual enlightenment due to him being buried for 41 days. After surviving the experience, he realized that love was the ultimate universal force and he defected and decided to expose the Lodge's activities.

Chong also discusses Thiaooouba Prophecy, a book written by Michel Demarquet about an extraterrestrial race of Hermaphrodites that he encountered in the 1980s, and what the book has to say about secret societies such as the Lodge/Illuminati. Chong finished by explaining why the Thiaooouba Prophecy is relevant today.

Dr. Salla: Samuel Chung is a certified court interpreter. He translated a book by a French contactee Michel Demarquet about a hermaphrodite race of extraterrestrials called the Theubins. More recently he has translated a book by a German high-level representative of the Illuminati who defected and he's here today to tell us about the book and the secrets it reveals about the operations of the Illuminati.

Dr. Salla: Welcome back Samuel to ExoPolitics today.

Samuel: Thanks for having me here again.

Dr. Salla: Well we had you here about a year ago and you talked about the *Thiaouuba prophesy*. So why don't you just introduce yourself to people who maybe didn't see that video and they're nothing about you.

Samuel: So I'm a Chinese translator based in Los Angeles. So I work mostly with lawyers and doctors, but in my free time I explore different subjects. I translated the book *Thiaouuba prophesy* into Chinese which is a book about the warnings from advanced EPs about how we can change our future for the better indicating that the real dangers on Earth are number one money, number two politicians, number three journalists and drugs, number four religions.

Dr. Salla: Okay that's very good. Nice, succinct description of what you've done and we will get back to *Thiaouuba prophesy* a little later. But I'm fascinated by this book. 334% *Lies*. So why don't you tell us about the author of this book and what we know about him and what happened to him.

Samuel: Well the author of the book was actually a former highest degree member of a secret society that was founded in Germany. The book doesn't really mention anything about the Illuminati, it just says the word *Lodge*. But for my additional research and exploration I connected the dots indicating that the secret society mentioned in the book is actually the Illuminati order. The author was just a German college student when he was young and then he was introduced to

join the organization the Lodge and then he moved up the ladder and then from a basic degree member to the highest degree chair of that organization.

He was actually the chair of the German branch of the Illuminati, but then after a while he became the chair of the entire organization of the North American branch and also the European branch. He had his final realization after he was being buried on his own will for 41 days underground in which during the period of time he realized everything is about love, about having a symbiosis relationship between the Illuminati and the rest of the world. Then he wanted to change the direction of his organization to coexist peacefully and harmoniously with the rest of the world.

But then he discovered that he had an adversary, a younger person who had more psychic powers than he had, trying to overpower him. This actually made him decide to reveal the secrets of the organization so that the organization can be broken from within. This means that he broke the vows of secrecy telling us how the organization works operates and also the secrets that the members have in the Illuminati.

Dr. Salla: So the word Illuminati isn't mentioned in the book, it just mentions this organization called the Lodge that has branches all over Europe and the United States and so forth. This individual was chosen and his progression through the hierarchy was due to his advanced psychic abilities. I believe this is kind of similar to how the Rosicrucians operate, that they also have an order which is based on developing psychic abilities and the more you develop those abilities, the higher up you go. So it sounds like this Lodge is very similar and I don't know that much about the Bavarian Illuminati, I can only guess that it was also based on these psychic kind of abilities.

Samuel: Exactly, you are absolutely right. Throughout the book it describes how he progressed, developing his psychic abilities. So it reveals the secrets, how they did it, using a special form of astrology and numerology to predict events in the future and also using meditation to see auras or the human energy fields and also using their intuition and also mind control abilities to influence the decisions and behaviors of certain politicians.

Throughout the book it mentions that from time to time they would go

and meditate and to develop this kind of psychic abilities to be able to do certain things, but we would consider Black magic and a lot of people would ask that where did they get a knowledge to do so and they say that there's a library, actually there are different libraries in one each continent and the author was able to access a library. The knowledge contained in the different books so that he would be able to develop such abilities. They also use different rituals to do so as well. So this gets really graphic disturbing because it describes how they torture people, how they kill certain people to develop their psychic abilities to absorb the I would say the astral body or the electrons from the astral body into their astral body the psychic to increase their psychic abilities.

So this book is not for the average reader, it's not for the faint of heart. I would warn people before reading the book because it's really disturbing, very graphic and really rough. So be forewarned if you really want to get into the book. This is the book title *334% lies*. If you reverse it, this is actually a symbol like 334 won over a thousand. So if you reverse it, that would be the truth of 666, the truth of the devil. And I actually the author believes that this organization is powerful, but so evil that people need to know about this. But most of the things that they do are behind the scenes, they manipulate different things. They're the real devil of the world.

Dr. Salla: That's interesting. So can you explain maybe a little more how you reverse that title? 334% over a hundred or a thousand.

Samuel: It's 334, like one over a thousand. If you use a thousand to minus to subtract 334, you get 666. That's the number of the devil. So 334,000 lies will be the truth of the 666, the truth of the devil.

Dr. Salla: I see. So it's really just somehow that title is trying to get people to understand that if you subtract 334 from a thousand, you end up with 666. Okay, all right. That's interesting. Okay, well, thank you for decoding that for us. Now, you referred to some of the rituals. While this lodge or this Illuminati branch, it uses rituals. So you want to tell us about what some of the rituals are that they use. Yes, it gets really disturbing and really graphic.

Samuel: There's a story in the book which I believe actually happened. A young lady called for a pizza delivery. And the pizza delivery boy came to deliver the pizza and he was led into the, he was

actually drugged and he lost his consciousness. And then he was carried into the basement of the organization.

And then he was tied up and tortured. And the author was told to really torture that pizza delivery boy to death and then to take his heart out and then eat his heart alive. And then after eating his heart alive and he actually absorbed the electrons of the astral body of the pizza delivery boy.

And then he felt that he was empowered by the astral body of the pizza delivery boy. And he had more psychic power. This is one of the rituals that they practiced. And there were other rituals described in the book as well. So I wouldn't elaborate more because it's really kind of disturbing and how they deceive and torture people.

And throughout the book, like you see people deceiving each other and backstabbing each other, even within the organization itself. So it's really something not normal for current average daily life. You're going to see a lot of different interesting black magic performance and also how they are able to materialize objects from thin air. Like when he went to New York City to meet with the high level members of the organization in North America, he was trying to show his psychic abilities by materializing or manifesting pink diamond out of everyone's hand.

But his thunder is stolen by the people in North America because one person turned the diamond into a flying bird. So this is a kind of ritual or performance or magic that they have or the ability to do certain things that we would consider impossible to do or black magic. And I think it's very important to realize that the high degree members of the Illuminati all have this super power or super psychic abilities.

Dr. Salla: Yes, I think that's very important that the book kind of exposes that. Now, I'm kind of very interested in these libraries that the book mentions that they are all over, like the major countries or the continents, Europe, Asia, America, Australia, that these are libraries of destiny. And I read part of that book and it describes some book that was taken out of that library that was used to predict the future of this of the author and that it was a kind of stone tablet written with a strange language or a language that he didn't recognize in it. Maybe later on, he expands on that. But yes, I only read the kind of introductory parts on Amazon. So yes, tell us about the library and the

Library of Destiny, so they can actually predict the future, future events I list.

Samuel: This is why some people always wonder why the Illuminati card game was so accurate in predicting events that happened in the future. For example, if you know the Illuminati card game, you're going to see that it predicted the 9-11 event in 2001, that happened in 2001, it predicted the pandemic, COVID, it predicted the Donald Trump, the charismatic leader, and it predicted capital rights and also the political correctness that actually way ahead of its time.

So they actually used the library and also the special form of astrology and numerology to predict future events. What happens is that normally we, in astrology, we would just give out our and also the location birth to the astrologer and so that we would be told about what's going to happen in the future, but they use a different way of doing so.

They're able to calculate the locations or positions of the five major planets in our solar galaxy at a given moment of time, using a special formula. And then they would use the tendencies or characteristics of the of specific planet to predict what's likely going to happen in the future.

They're also using the meanings of members to predict future events based on certain information that they gather. And they also, like I think the library contains the knowledge of how to do so. And this is actually one of the reasons for me to visit the copyright holder of the book just in Germany in October just to find out more information what they are up to.

But I think one of the most important information contained in the book is that right before he became the chair, the highest degree chair of the Illuminati, he was given a stone plate of different of a birth-fringe language. And then he would stare at a stone plate just like Nostradamus did when he was going to predict what's going to happen in the future.

He just stared at a stone plate and then images of the future events would come to his mind.

This is what he called the on-prejudiced scene. And I think this is one of the psychic abilities that he was able to develop over the years through meditation and through the knowledge that he received from

the books in the library. So I think that's very interesting. And we have to be really, really warned that the high degree members of the Illuminati can predict the future to a certain extent.

Dr. Salla: How does that work? I mean, so they use astrology, they have tremendously developed psychic abilities. And there are these stone tablets that somehow correspond to every individual on the planet or in that continent. I mean, and the language on that stone tablet, I mean, I guess, yes, so I don't quite understand how that stone tablet would have within it the destiny of an individual. Because I remember reading that was like the author was sitting at a dining table and eventually he gave his details and they went and got a stone tablet and that was read and predicted the following day for him.

Samuel: Yes, that's the ambiguous part in the book in which that's the earlier part in the book in which he was invited to join a dinner of the organization and his uncle, no relationship, but he calls him uncle, which is kind of a leader in the organization, brought us like a book or stone plate in which his future was read. And he used trickery then gave him like a false birth date. And then, and then because of the incorrect birth date, the person couldn't find the right book of his destiny. And then he admitted that he gave the wrong birth date. And then he gave the right birth date and the book was brought up to the uncle and the uncle was able to read his future. And telling him what would happen in the next few days or so, which really happened to him. So that's the earlier part. And then when he became before he was about to become the chair of the organization, he was given a different stone plate in which imprinted a very strange language. And he was told if he stared onto the stone plate, he would be able to see the future in which he did. And he used that stone plate to practice seeing of the future by using on prejudice, observation, or looking. So that's the difference between the two events. The earlier event in the book, the other is after he or right before he became the chair of the organization.

Dr. Salla: Okay, so the stone plate has something, a design on there that kind of like triggers this ability to be able to prophesy the future.

Samuel: Yes, he says that the design or the imprint on the stone plate can help him to see the future better. But if one practices meditation and using on prejudice seen, one would be able to stare at any given

object as long as the object is not a live object. For example, you can stare at other stones or just like a wall or something. You're able to see images of the future just like what Nasser Demas did when he was about to predict the future. He looked at a ball of water and this is what Nasser Demas did. But I think this is just a practice of a psychic ability that everyone would be able to develop. And you've seen the stone plate or like any object as a two, the stone plate is just a two in my mind to help him to see the future.

Dr. Salla: Okay, so this library that has all these stone plates that can be used to see the future and it's used by the lodge and it's revered by members of the lodge that there's a library in the different continents or different geographical regions and there's one in Europe, one in America and so forth. Now this one in Europe, apparently this was where that author went. I mean suggested it was based somewhere in Germany, but it raises the question, does the Vatican have something similar? I mean the Vatican Apostolic Library or the Vatican's Library is also supposed to have all these esoteric texts. So would that be something similar or are they one and the same?

Samuel: I would say probably not the same because from what I read in this book, I would suspect that they got a lost knowledge from Atlantis because Atlantis was a continent that sunk into the ocean back 10,000 years ago and then some of the books were kept in the Library of Alexandria in Egypt, but after the Birmingham Library a lot of the knowledge was lost, but I think that some of the books were kept in the Library's mentioned in this book, 334 Lies, in which the author had access to. So I would think that the author had access to the books that contained the knowledge of the ancient civilizations from Atlantis or Lemuria while the Vatican probably had textbooks or books related to other subject matters, not necessarily from the ancient civilizations because from what I believed that the author, the highest degree chair of the Illuminati had the knowledge to perform miracles. I don't think the Vatican would have the books on that subject.

Dr. Salla: The author he describes some secret societies as being honorable doing good things, good works and other secret societies such as the Lodge being very dangerous and evil. So yes can you maybe explain a little bit, we have a diagram here of some of the different secret societies. So yes if you want to comment on any of

those or what comes up in the book as being examples of either honorable or dishonorable secret societies.

Samuel: Well this book mentions a lot of the operations that they did including informing alliances with different fraternity organizations, but it doesn't really name names, it doesn't say these are Rosicrucians. It doesn't say the other the names of the other organizations such as the Club of Rome or something like that. It just says that this organization which is the Illuminati is powerful, but dangerous. Well the other organizations probably be Masonic Lodge or something like that. They are secret, but they're benign and this this really surprised me because I read a lot of books mentioning or indicating that the Masonic organization was kind of evil or something like that, but this book really opens my mind that not necessarily so. I will say that the only connection between this book and the Illuminati is a website called illuminatiorder.info because when I found what I was first surprised that there's a strange language in the beginning of each chapter which I didn't know what language that was and I typed the

language onto Google and then did a search and then the website illuminatiorder.info came up and then it had the that strange language which is actually the original language for the tablets of the Emirates, the Emirates tablets and then the German translation and the English translation so everything matches. So this is how I was so I think the conclusion is pretty kind of conformational is that this book the lodge mentioned in the book is the Illuminati Order which is indicated on a website illuminatiorder.info which is very strange website if you if you browse the website, but it really doesn't say anything else about the other organizations.

Dr. Salla: Okay well that's interesting so this lodge is connected to the Illuminati and by that we assume that's kind of like the Adam Weisshaupt the Bavarian Illuminati that this or this lodge is somehow connected to that or outgrowth of that now and that there's a difference with other organizations such as the Freemasons that are more benign in as you just explained. Now I just wanted to kind of like bring out some information about the Freemasons that other authors have brought forward. I know that there's an author Radu Cinema who's written a series of book called Transylvania Sunrise and in there he describes Freemasons as being very hierarchical, but at the very top and by and large most are doing good things that are innocent, they're not doing bad, but at the very highest level that these guys these Freemasons essentially control most of the planet's secret knowledge so I guess at the at the highest level of organizations like the Freemasons maybe you have some crossover or maybe the same people working with organizations like the lodge.

Samuel: Well it's certainly possible, but the lodge in this book is more powerful and dangerous because according to this book about 20 people can tour the entire world and they divide up the world among themselves so I actually had a personal experience with a friend of mine who actually witnessed personally about five billion dollars being transferred to his to the bank account of that was set up using his own passport in Hong Kong the HSBC VIP service of in Hong Kong just in order to convince him that there are people in China or Hong Kong that directly or indirectly control the money supply and above the central banks or maybe working in connection with the central banks and he actually also saw them interacting with the members or people of the

New York Fed they also directly or indirectly control who become the leaders of China and he was given the explanation of why certain person became the leader of China was going to who is going to become the next leader of China and what he was going to do everything turned out to be true and so there is an organization that can towards everything behind the scenes and they frequently use the word blood lines for some strange reasons and my friend didn't know why and he unfortunately he lost contact with that person because he didn't follow their imitation or didn't go to their imitation to meet the next leader of China so I think there may be a lot of interconnections between the Freemasons and the organization the Illuminati, but I think in this book they say that if you really there's no way for you to know who those 20 people are because they always do things behind the scenes and their names never appear in public never get printed on newspapers and if you do a search on Google of their names there's going to be no result and they may be just like average person walking on the street and, but they actually can control a large part of the world so this is how they operate always running behind the scenes because they say the politicians come and go over for five years, but the people who can control everything behind the scenes never get kind of taken down the power.

Dr. Salla: Now you mentioned that this high level defector from the lodge from the Illuminati was for a time running that organization in the United States and you know when you said that made that statement about that the lodge and the Illuminati, they believe elected representatives come and go and they just come up part-time and that the Illuminati, the lodge, that they are the ones that run things immediately made me think of in the United States in the bureaucracy you have something called the senior executive service which is like very which is above the kind of the pay grade of most public servants. I think GS15 is the highest kind of level you can go to as a bureaucrat before you enter into this senior executive service which seems to be a class on its own in terms of being really the permanent government or the deep state.

These guys they believe that they're running things. So would this senior executive service in the United States be a group which is thoroughly infiltrated or controlled by this Illuminati.

Samuel: They certainly can influence the decision-making process of this group of people the senior service people and remember the high degree members of people not Illuminati they have psychic abilities to do mind control they can actually go inside of a person and see what that person sees, hear or experiences and then make decisions of that person and then and then they would leave the person's body and then injecting the memories of making such decision into that person's brain or memory so that the person wouldn't be suppressed at making such a strange decision so this is the ability or the psychic powers that the Illuminati members have.

So they're able to use the senses of another to really see everything that the other person sees and so of course they will be able to influence the decisions of the politicians or people who are really in power, but remember this guy's they never come into public and this is why in the book it says there's no use to use law enforcement people to arrest any of the members because they can just use their psychic abilities to project false images to the law enforcement law enforcement personnel so that they can escape like very easily so this is why the author of the book really wants the organization to be broken from within and this is why he broke the vowels of secrecy revealing all the secrets of the organization hoping that some of the members can be enlightened and know the real purpose of life and reaches about love and coexistence and so that there will be more defectors breaking from the organization so to reduce the power or the influence of the Illuminati.

Dr. Salla: Well there's some organizations that are kind of fairly well known in the United States one of those is Skull and Bones and there are rituals that young students I think these are the young university I think it's in the senior year that like precocious students high achievers are approached to join the Skull and Bones and so they perform various rituals so yes do you want to describe what you know of Skull and Bones and the different rituals they do and how that would fit into this Illuminati organization?

Samuel: I think the Skull and Bones is just another secret society in the US that has a lot of connections or political powers of its members, but in terms of how much psychic abilities that the members have I'm not so sure because from the people that know who are members of

the Skull and Bones I don't think they have sufficient psychic abilities as described in this book remember the books 334 lies it's actually written by the highest degree member of the Illuminati and a lot of the other books written on the subject of the Illuminati are researchers who find the literature or books on the subject matter and also some of them know some of the lower degree members of the organization and they write such books, but this book is actually autobiography of the former high-secret chair who writes about his personal experiences how he moved up the ladder becoming or how he became the chair of the organization after being buried 41 days alive underground and then from the perspective of the leader of the organization and revealing the core secrets of the secret society so I think if you really want to get into how the world works and how they perform Black magic how they manipulate different people I think reading this book will be necessary and I think a Skull and Bones is just one of the many secret societies that the author of this book would consider to be not causing a lot of harm to you to the people on Earth.

Dr. Salla: Now I know you mentioned that case all that example of how the Illuminati performed these very dark rituals like that pizza delivery boy how he was kind of killed heart eaten is that really a key part of being able to progress into the highest levels of leadership of these organizations you know whether we're talking Freemasons whether we're talking the Illuminati is some form of kind of like satanic ritual abuse where children are sacrificed is a key way in which a person is able to progress into the higher levels the answer is no, but they use the rituals to control their members so that they wouldn't leave the organization because they all committed bad acts horrific acts.

Samuel: There are different ways to increase son and psychic abilities for example meditation is actually mentioned in the book and another important condition is that the person has to be predisposed to be able or to have the potential to develop the psychic abilities for example in this book it talks about the author having past lives one of his past lives was like a Pharaoh in Egypt very powerful Pharaoh and then so he had many past laptops he had a lot of knowledge and also I would say the electrons in the astral body that would be able to give him the knowledge or at least easily remember making him remember the

knowledge to perform such psychic abilities and I wouldn't suggest people to increase their psychic powers by participating in the rituals that they perform because there is a very good scientific study about past lives and also past life regression in which when a person dies the person has to go through a life review process kind of the entire past life would be shown to the person just like a holographic film he or she would be able to feel the pains that he caused onto others and those are the sufferings of the people that he caused them to suffer so if he if someone tortures a person then he would be able to feel the pains and sufferings of the person he tortured so this is the reason why I wouldn't suggest anyone to really perform such rituals horrific rituals to gain psychic abilities because there are other ways to do that such as meditation concentration mentioned in the book *Thiaoouba prophesy*. The book *Thiaoouba prophesy* gives you a lot of knowledge to be able to perform such abilities and so is this book this book talks about the importance of seeing auras and how to do that and actually this is the reason I found this book 334 lies because I know from *Thiaoouba prophesy* it's very important to be able to see the colors of auras of different people because if that's the case we will be able to tell who is lying on the stage and we will be able to choose a better political candidate just by looking at the auras of that person we will be able to predict the physical illness of a person way before the symptoms manifest and also we will be able to do a lot of other things as well and there are ways to do that as mentioned in the book 334 *Lies* one is to really look at the middle of the eyebrows of the person and then just stare at that location at that point for a long time and then sooner or later you're able to see like the colors of auras or maybe some other things. So this is a very unique technique described in the book if people are interested you can check it out.

Dr. Salla: Decades ago when I came across some Rosicrucian literature describing some of the exercise to develop psychic abilities and it didn't really interest me at the time I was more interested in kind of like Eastern philosophy and so forth, but it sounds as though you know the this particular organization that the author entered was very much a merit to credit organization because I mean he was like an outsider he wasn't brought up in a family he was just brought up in a normal family no connection to the secret societies, but it was

because he had advanced psychic abilities that he was able to rise up very high and that this that's all you need to rise to these high levels in these organizations whether they're well in this particular one that seemed to be although all they were interested in well actually he was chosen to be brought into the organization from before when he was a college student in Germany he was approached by a very attractive lady who was actually used by the Illuminati as a person to drone him into the organization.

Samuel: They were able to see the colors of the auras of different people so they approached him because he had a unique aura they were able to see that he had the potential to develop such a psychic abilities they were able to tell that he was a bisexual because they performed a lot of homosexual acts as well and then they were able to tell his strength and weaknesses and then because if you're able to see the auras of a person you're actually able to understand far more than anyone else about that person probably better than the person him or herself because you'll be able to tell the personalities of the person you'll be able to tell the past and the future of that person you'll be able to tell a lot of different things if you if you find a very authentic aura reader get a reading and you're going to be amazed at what the aura reader can discover about yourself so this is the reason I found the book 334 lies because I was looking for ways to see the colors of auras and as indicating the book the *Thiaooouba prophesy* that will be a very important skill to develop

Dr. Salla: Now I remember coming across some information many years ago and it concerned the ability of some of these black, black magicians or these human sorcerers to be able to entrap extraterrestrials and I and that that some of the except visiting extraterrestrials were warned about the danger of these black magicians on Earth that had this ability to entrap them and control them. So yes do you want to maybe elaborate on that possibility or if you know anything about that?

Samuel: Yes it's certainly possible. It's definitely possible because once you reach a certain level of psychic abilities you are actually doing the things that a lot of the highly advanced ETs could do and there are different levels of ETs different categories of different ETs in our galaxy this is why I would suggest people to read the book the

Thiaooouba prophecy because according to that book people on Earth are category one inhabitants. They come from category nine planet they're the highest level. And the ones that we always hear about, the Grays, they're actually category one planet inhabitants trying to monitor us and to see how we respond to the increasingly decreased immune system, because the Grays also have the same problems as we have been having.

They just wanted to see how we cope with the situation so that they can learn from us and their spacecraft crashed on Earth because their technologies were not that far advanced, but I would say we should learn from others because their spacecraft would never crash on Earth because they're so highly advanced compared to the ETs, compared to us. It is definitely possible to use your psychic abilities to entrap category one E.T.s such as the Grays. That's definitely possible, but you are never able to entrap using your psychic abilities someone from the UVAs because they're so highly advanced and they will be able to have better ways to prevent that from someone doing it to them.

And actually I do know that there are technologies by some of the organizations military wise or civilian wise that can actually mimic how people think using AI or using what they would call Voice of God or voice of skull technology and also to make people believe that someone is speaking of certain things to them. I know that there are a lot of victims in China and then you as an elsewhere in the world and this is to be paid a lot of attention by the people, but I do believe that if you increase your psychic abilities you're definitely able to entrap lower degree or lower level E.T.s.

You know, regarding the reptilians or Draco beings, neither of the two books talk about them. And, but I get one mentioning of the reptilians from a Dutch banker called the Ronald Bernard, and he used to work for members of the Illuminati. And he says that the Illuminati controls the central banks of the world, working behind the scenes, running the Bank of International Settlements. And he personally witnessed that one of the members killing another person, just by putting his hand onto the chest of the person. And he says he knows that people always talk about the reptilians, but he found no evidence of that. He says that people tend to believe that the Illuminati are connected to

the reptilians because of the supernatural or super psychic abilities. And I personally haven't found any connections between the reptilians or Dracos to the Illuminati. I personally believe that people may perceive them to be connected to the reptilians because of the supernatural or super psychic abilities that they can perform.

Dr. Salla: Bernard, you mentioned him and he's a very interesting witness. He talked about his role in terms of being recruited and central banking and so forth, you mentioned. But he also said that what led to his defection from that organization, from that pathway, was when he saw the way the children were being treated. And I assume he was talking about the kind of like SRA that was occurring and that led to him making a break from it. So yes, I guess he's an example of a normal person that maybe rises to a certain level. And he described that as like, well, if you wanted to get to the higher level, you needed to participate in these rituals involving children and then you could rise high. But because he didn't do that, then he was shunted aside, he defected, and then he became a witness.

Samuel: Exactly. And I've heard other things about well-known business people in the US controlling one of the largest foundations and then torturing or abusing children. And I've heard a lot of stories about that as well. And they do have a lot of validity and they do use that to control members of the organization so that they wouldn't leave the organization for the fear of being exposed of the horrific acts that they did. And they do that to control members. And not necessarily to increase the psychic abilities, but to control the members.

Dr. Salla: Okay. Well, let's talk a little bit about the *Thiaoouba prophesy*. I mean, we did an interview just over a year ago where you talked about that. So you want to give us any update on that particular book and what is happening today?

Samuel: Yes. I see that it's really true that the book mentions the real dangers on Earth. And also, what's interesting is that the solutions given by the book are really practical and also doable. Because for the real dangers, it talks about money, politicians, journalists and drugs and religions. But really, the solutions lie in the hands of the people. They are suggesting that people can act together consider the fashion using non-violent resistance to rise up against tyranny of the world, which are the financiers or the families or the bloodlines of the world.

Can you turn everything behind the scenes? And it's given people's power and hope that if we act, then the future will be changed for the better. Because while the past is fixed, the future is changeable depending on our collective consciousness. So the book really suggests that people look inside for answers when we have challenges in life. And this suggests people to have spiritual knowledge and real practical knowledge to know what's really going on behind the scenes. So a lot of practical knowledge in the container book would be like how to kill viruses or bacteria using blue light and yellow light. This is actually proven by Harvard Medical School in some of their papers. And also, practical value would include how to really achieve psychic abilities and also to use your intuition when making decisions so that you can advance your spiritual lessons. And there are also ways to help yourself and also others by providing them with the practical knowledge when certain things happen in your life unexpectedly. It also gives people the knowledge about the past and future life as well as the meaning of life which is to really develop our spirituality and to increase our spiritual knowledge. Because we learn different spiritual lessons in our past lives. And Michel Demarquet, the author of *Thiaououba prophecy* was shown of his past lives, 80 past lives. Once he was a German minor who accidentally killed his wife and leaving many children behind him, once he was a Japanese goldsmith, a few times he was a beggar on the street. And he had different roles in his past lives, learning different lessons through his encounters or challenges. And this is how we develop our spiritual spirituality. And our past lives are just like different positions on a wheel. What goes up has to calm down. So we have to experience everything in order to fully learn the spiritual lessons that we need to learn. So there is no need to envy about the super wealthy of the world because they have their own challenges and their own spiritual lessons to learn. We have our own as free destined before we were born here. So there are a lot of different lessons and spiritual practical knowledge contained in the book *Thiaououba prophecy*. And it also talks about ancient civilizations, Lemuria, Atlantis, and also the ET spaces, the ET bases on the first as a moon and life on Mars. Like yes, Mars had life before about 1.35 million years ago. A lot of interesting things can be verified nowadays, but the book was written

in the late in the early 80s and published in the early 90s way before the age of the internet.

Dr. Salla: And there are a lot of specific verifiable facts in the book that I strongly suggest people to explore further. But both books kind of emphasize psychic development and also the author of that first book, *334 Lies*. He described how he arrived at the understanding that it really was all about love, that developing psychic abilities to dominate, control, and be able to advance in life didn't really mean as much as just being able to develop the love. So do you want to maybe explain how that led to him breaking off? And what happened? When he broke away, and there's some controversy over the book, *334 lies*. So yes, what happened when he broke away? And how did this kind of understanding that it's all about love help him reach that decision?

Samuel: So before I get into that, I'd like to describe how the book talks about what they did before to the world. So as an organization, they supported politicians, fanatics, even terrorist organizations to advance the interests of the launch. And the largest America played people off against each other, causing fights among different mafias, tempting the KKK, attacking, attacking minorities, and simultaneously formatting racism and launching cruises against racism. So they supported both sides of the acts. So the other sense, the other means the Republicans and the Democrats would be both, both of them would be on their payroll. So they supported their actions, and they supported the people against that action. So they supported both sides. Their goal is to divide and rule. So this is their ultimate purpose. But after the former chair of the Illuminati was buried on the ground for 41 days, his other body lives his physical body. And then he realized everything is about love when God or the Creator created everything. So after he was after he's after body came back to his physical body, he decided to change the direction of his organization. Formant in like a same ballast relationship, the stress of the world. So he was making peace, and not causing wars or conflicts of the world anymore. So that actually caused a lot of conflicts with other members of their organization. But he was able to surprise the fractions that were against him, because he was the highest degree chair, the 41st degree chair of the Illuminati. But then as days go on, he found that there was a younger person who was more evil and had more psychic

abilities than he had, and trying to overpower him. And more and more of his allies were leaving him and joining his adversary. And so this is why this is what caused him to write a book, revealing the secrets and breaking his falls of secrecy. And so the book was actually published first in German language in the year 2001. And he disappeared in the summer of 2001, just one or two months before 9 11th happened. And no one knows where he is right now, whether he's alive or dead. And the contact that I have, I have, is the copyright holder of the book, which is a German consulting firm. And that's the only contact that I have. They kept inviting me to their annual meetings. But because if you read the book, you're going to see the horrific things they did to the piece I delivered to boy and other people. I had been, I had been, I had been putting off their invitation and finding excuses delaying my trip to Germany. But over the last year or two years or so, I have seen many, many new conflicts caused by, by this group of people, according to my speculation, the worst in Ukraine and the conflicts in the Middle East. So I'm willing to sacrifice myself by meeting them, exposing myself, advancing the interests of the copyright holder, and to really find out what is going on with them, and to find out what their agenda is in the future, and to find out more information on their plans in the future. So I know this is going to be a very dangerous act. If you read the book, you're going to know why it's dangerous. But I think it worth it. I'm willing to do it.

Dr. Salla: Go to that book fair in Germany where the publisher has invited you and you're working with them obviously. So that suggests that there might be some connection to this lodge through that publisher, or maybe those interested in the book, and you're exposing yourself. So that is courageous. We do wish you well when you get over there. One of the things that I'm presently very interested in is data that's coming to me from different sources that King Charles III, it was recently possessed by a very dark malevolent spirit, and that he may represent a real anti-Christ force on the planet. So yes, do you know anything about that?

Samuel: From what I read so far, the technologies that some of the militaries have is certainly possible. They're able to use a radio wave kind of frequency to control a person's mind. It's definitely possible both using psychic powers and using modern technologies. So using

modern technologies, they're able to really make the people have illusions, and believing that they're in certain situations, or they had certain experiences which never happened. So this is why some people may have encountered such, or some people may be the victims of such technologies, including politicians or world leaders. It's so possible. And there's a work book written by Dr. Robert Duncan, who was actually a participant in such operations or projects in which they used this kind of electromagnetic or radio wave technology to control people's mind, giving them illusions or causing them to act in certain way, or even kill people, or making irrational decisions. So this is the kind of the world that we're living in right now. So this is why the book *The Thiaooouba prophesy* warns about technology. Technology should be used to develop our spirituality and not to use to enslave us in this more and more materialistic world. And at the same time, it's also possible using psychic powers to control a person's mind. It's also illustrated in a book *The Thiaooouba prophesy* and also *334 Lies*. It's entirely possible to make a person believe certain things happened and to make a person to act in an irrational way. And I do believe that this is a very dangerous world we're living in right now.

Dr. Salla: Well, there is this growth in transhumanism and what you were describing from *The Thiaooouba prophesy*, that it's all about development of ourselves, developing these gifts that we have psychic gifts. And of course society, or at least the kind of techno-centric side of society that we live in today, is really pushing this transhumanist agenda. It seems that people are just spending more and more time on computers, becoming dependent on computers and of course cell phones and all of that. So I can't imagine it's going to be too long before some development, whether it's Apple or someone else Google is going to develop some kind of human chip that you just slap on a chip and you're connected to the internet and it goes into your body. And so then the transhumanist agenda moves forward. But on the other hand, *The Thiaooouba prophesy* and of course I guess the author of this *334 Lies* book are emphasizing that really it is about love rather than going down this other path.

Samuel: Yes, exactly. Because love is a reason that the creator created human race on Earth. It's to experience through our challenges, the stories and the happiness and everything that we

experience in life. Because the creator is a pure spirit, it doesn't have a physical body, it needs our physical body as a carrier to experience everything that we experience. And we send positive feedback to the creator so that everything goes around and around and we can evolve and move up the letter and then reach category nine, which is like a paradise state of world. And everything is so perfect on the planet field. So this is actually the reason why we live here is to grow spirituality and to move up the letter so that we can join and redo it with the creator of the universe, which is a pure spirit.

Dr. Salla: Very good. So where do people go Samuel to learn more about you, to purchase any books that you've translated?

Samuel: They can find me on Facebook and do a search on the search engines and the books are on Amazon and I strongly encourage people to read them because you're going to gain knowledge and knowledge is power.

Dr. Salla: Very good. Well, I wish you well and definitely keep in touch and let us know how this trip to Germany goes and I look forward to collaborating with you on some other projects. So definitely keep us in mind and we wish you all the best for your trip to Germany. Thank you so much, Michael.
